

Revive your computer.

Get more life out of your computer and maximize your existing investment by replacing your old hard drive with a Kingston® SSDNow V300 solid-state drive. It's the most cost-efficient way to dramatically improve the responsiveness of your system — and it's less disruptive than migrating your data to a new system.

SSDNow V300 features an LSI® SandForce® controller customized for Kingston and optimized for next-generation Flash memory to deliver the utmost in quality and reliability from two leading SSD brands. Because it's made with solid-state components and has no moving parts, it's shock-proof and withstands drops and bumps.

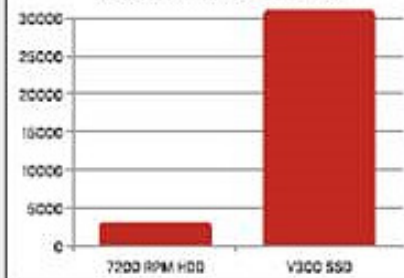

SSDNow V300 is easy to install and available in kits that include all the accessories you'll need, including the software to clone your files and OS in minutes. It's backed by a three-year warranty, free technical support and legendary Kingston reliability.

- > Cost-effective system upgrade
- > Makes your system more responsive
- > Maximizes your computer investment

SSDNow V Series

10x Faster than a standard 7200 RPM hard drive

Based on PCMark® Vantage, Advanced Edition, HDD Test Suite
